Make work rare, cheap, desire-able...(expensive is okay in some cases, arduous "time consuming" challenging bewildering miraculous support) give to those who deserve and enthuse and inspire. Practical mix of material social politics and this elusive (?) ineffable (?) "art". True politics essential beyond intellectualism (the word ...intelligence....) –human touch, caress, I am with you in the street, on the path, in the store, on the phone, in the dark.
